Notes:

Landings in this report include all scup landings reported for week ending May 1, 1999, therefore some landings may be from the Winter I period. These landings will be separated into the respective quota periods at a later date and the quota report adjusted.

Effective at 0001 h on June 28, 1999, fishing vessels with a federal permit may no longer land scup.

For week ending July 3, 1999, 170 dealers held a federal scup permit. Of those 170 dealers, 133 (78%) have submitted a weekly quota report for the current reporting week. Because Massachusetts dealers submit weekly quota reports directly to the state, they were not included in these calculations.

Negative late entries are the result of corrections to the database.

The following summary is updated as information is received, and may not reflect recent state actions. Readers are urged to contact the appropriate state agency for further information. These data are the best available to NMFS when this report was compiled. Data are supplied to NMFS by dealers and/or state agencies and may be preliminary. Data supplied by the State of Massachusetts are as of June 26, 1999.
